Nectosia

The divine gift

The brand **Nectosia** is a producer of delicious products called **Nectar** and **Ambrosia**.

The products

This art belongs to the creators of the game Hades, Supergiant Games.

Nectar is a **divine drink** that is most commonly drank by Olympian gods in ancient Greek Mythology.

It is said that this drink brings **immortality for any mortal** who is lucky enough to drink it.

Our hero willingly gifts these rare items to his friends and family. It is very much appreciated by the denizens of the underworld.

Ambrosia is usually seen as godly food, however, in the game, it is seen as a **large quantity of Nectar**.

A **truly decadent gift**, that is nonetheless very appreciated by anyone who receives it.

This item can only be obtained after **trading equally rare items** with an NPC, or **defeating the Champion of Elysium**.

This art belongs to the creators of the game Hades, Supergiant Games.

Brief summary of the story

Hades is set in the **underwold**. It takes heavy inspiration of the **ancient Greek mythology**.

The conflict of the story lies in the **perpetual efforts of escape** from the underwold from our protagonist.

Due to hiding an important secret of the main character's birthmother, **our hero and his father have a complicated relationship**.

Eventually, **the hero manages to get past his father and unites with his birthmother**.

Personality

Our main protagonist is called **Zagreus**. He is the **rebellious prince of the underworld**. **Persistance, good humor and sharp wits** are his trademarks. He is also **joyful, benevolent and humble**, something that makes many characters warm up to him.

However, he **doesn't seem to have a great relationship with his father**, Lord Hades. The lord of the house considers his son as a failure and a brat. He is often rude to him and has little tolerance for the Prince's hiccups. Additionally, Lord Hades has hid the fact that one of the characters, the goddess Nyx, isn't his real mother. **Determined to find his mother, Zagreus makes his way through Hell**.

Through the gifts and blessings of his relatives on Mount Olympus, he makes his way to the surface, right after an epic battle with his father.

Upon the long-awaited meeting with his mother, he collapses and dies. Resulting in him ending up in the Underworld again.

He is bound to his birthplace, but still fights his way to the top to reunite with his mother.

Eventually, **he succeeds in bringing his mother back as the queen of the Underworld**.

HADES

BONE HOURGLASS
Items from the Well of Charon have durations increased by +4 Encounters.

From Charon: you share an Unspoken Bond

Only a scant few souls ever earn the favor of the feared boatman.
